About West Wood WPC

# About Us —

**WestWood** is one of Egypt's leading providers of high-quality **Wood Plastic Composite (WPC)** solutions, serving both individual clients and commercial contractors. With a focus on innovation, durability, and design, WestWood delivers superior outdoor and indoor solutions tailored to meet a variety of residential and commercial needs.

Our team of over 50 skilled professionals is committed to providing reliable, long-lasting, and aesthetic WPC products that redefine modern spaces. Whether for home improvement, landscaping, or large-scale construction projects, West Wood offers a seamless blend of technology and nature.

## **Our Vision**

To become the most trusted and innovative WPC solutions provider in Egypt and the MENA region, inspiring sustainable living through premium composite products.

## **Our Mission**

We are dedicated to delivering exceptional WPC products and services by combining advanced treatment technologies, high-quality materials, and a customer-centric approach to enhance modern architecture and outdoor living.

# Core — Values

- **Quality First**  
We prioritize premium materials and processes for durable results
- **Sustainability**  
We support eco-conscious alternatives to traditional wood.
- **Customer Satisfaction**  
We build long-term relationships with trust and consistency
- **Innovation**  
We continuously develop and adapt to the latest industry trends.
- **Integrity**  
We operate with honesty and transparency in every project.

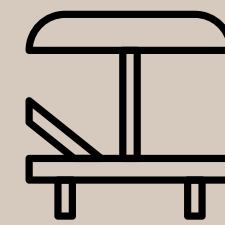

## Our Main Product – WPC

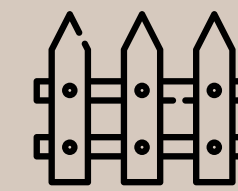

Wood Plastic Composite (WPC) is our flagship product – a modern, eco-friendly alternative to traditional wood. Our WPC is known for:

- High durability and resistance to weather conditions
- Low maintenance requirements
- Aesthetic appeal and wood-like finish
- Advanced treatment to prevent decay, pests, and moisture damage

### Applications include:

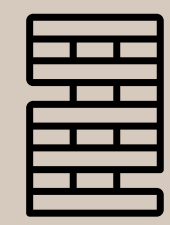

Decking

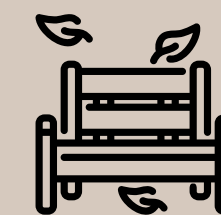

Fences

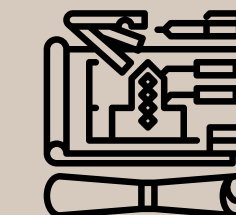

Pergolas
